

## A new study programme at the Faculty of English, AMU (since 2017)

### “ENGLISH LINGUISTICS: THEORIES, INTERFACES, TECHNOLOGIES”

Are you passionate about language and new technologies? Would you care to match an excellent command of the English language with expertise in language theory and IT? Have you always dreamt of unique studies in English?

#### An interdisciplinary B.A. study programme in English

4 modules:

- theoretical linguistics
- interdisciplinary linguistics
- application of information technologies
- academic English

Training and internships in companies.

The programme takes part in the project “THE UNIVERSITY OF TOMORROW - an integrated development programme of Adam Mickiewicz University, Poznań” in the years 2018-2022.
